Data Analyst pursuing a **B.S. in Statistics** at **Northern Illinois University** (Exp. May 2026) with hands-on experience in **data extraction, processing, and statistical analysis** of healthcare claims data. Demonstrated ability to build **reporting dashboards, conduct quality improvement analysis,** and communicate findings clearly to both technical and non-technical audiences. Targeting roles in **healthcare analytics, healthcare supply chain management (HSCM),** and **data-driven operations.** Committed to using data to improve **quality of care,** lower **cost of care,** and strengthen organizational decision-making.

Education

- **B.S. in Statistics** (Expected May 2026) | **Northern Illinois University** – DeKalb, IL
- Minors: Mathematics & Geography | Honors Program | Statistics & Actuary Club | American Meteorological Society | NIU Tennis Club

Technical Skills

- **Healthcare & Claims Data:** CMS Billing Claims, HCPCS Coding, Medicare Reimbursement Structure, Cost-per-Beneficiary KPIs, Provider Outlier Detection, HSCM Data
- **Databases & Tools:** SQL (PostgreSQL), Relational Database Design, Excel (Advanced – Pivot Tables, Advanced Formulas), Python, R (RStudio), SAS
- **Analysis:** Statistical Modeling, Regression, Hypothesis Testing, Quality Improvement, Process Improvement
- **Languages:** English (Professional), Polish (Native)

Certifications

- **Meta Data Analyst with GenAI** – Coursera | **Intermediate SQL** – DataCamp | **Data Analysis in Excel** – DataCamp | **Quantium Data Analytics** – Forage | **Career Skills in Data Analytics** – LinkedIn Learning

Healthcare Analytics Experience

- **Medicare Provider & Spending Analysis | *SQL, PostgreSQL, Excel, CMS Data | Feb – Mar 2026***
  - **Extracted, collected, and processed 2,460 CMS Medicare billing claims** for Illinois psychiatry providers, simulating a data analyst workflow for a **community mental health organization**.
  - Designed a normalized **relational database** in **PostgreSQL;** wrote six queries using **CTEs, subqueries, window functions,** and aggregations to answer clinical cost and quality questions.
  - Calculated **quality improvement KPIs** – cost per beneficiary, average Medicare payment per service, spending by specialty – and identified **provider outliers** and high-cost procedure codes.
  - Applied **CMS reimbursement logic** to distinguish submitted changes, allowed amounts, and actual payments – directly applicable to **behavioral health and HSCM billing.**
  - Delivered an **executive Excel dashboard** with **pivot table,** conditional formatting, and a **KPI summary sheet** for leadership review.

Additional Projects

- **Retail Analytics – Quantium Simulation | *Python, SQL | Forage | Apr – Jun 2025***
  - Analyzed **50K+ transaction records;** conducted uplift testing identifying **$200K+** revenue growth opportunities; delivered prioritized recommendations to management.
- **ML Classification & Predictive Modeling | *Python (Scikit-learn), R***
  - Built **Random Forest** classifiers; applied **K-Means clustering** and regression to identify behavioral predictors of academic outcomes.

Professional Experience

- **Certified Tennis Instructor | Naperville Park District | *Apr 2025 – Present***
  - Deliver structured instruction to youth participants; develop personalized improvement strategies demonstrating **communication, adaptability,** and **dependability.**
