Michal Kuderski

(630) 828-3189 | mkuderski21@gmail.com | Portfolio

Data Analyst pursuing a **B.S. in Statistics** at **Northern Illinois University** (Exp. May 2026) with a rigorous technical foundation in **SQL, Python, and R**. Proven track record of transforming complex datasets into actionable business strategies, including identifying **$200K+ revenue growth opportunities** through retail uplift testing. Passionate about leveraging **statistical modeling, regression analysis, and GenAI tools** to solve diverse business problems and enhance analytical decision-making.

Education

Bachelor of Science in Statistics (Expected May 2026)
Northern Illinois University – DeKalb, IL

- Minors: Mathematics & Geography
- Honors Program | Statistics & Actuary Club | American Meteorological Society (AMS) | NIU Tennis Club

Technical Skills

- **Programming:** Python (Pandas, NumPy, Scikit-learn), SQL (PostgreSQL), R (RStudio), SAS, C++
- **Data Analysis:** Statistical Modeling, Regression, ANOVA Simulation, Hypothesis Testing, Feature Engineering
- **Tools & Databases:** Excel (Advanced), Jupyter Notebook, Git, Kaggle, Relational Data Management
- **Languages:** English (Professional), Polish (Native)

Certifications

- Meta Data Analyst with GenAI Professional Certificate – Coursera
- Intermediate SQL – DataCamp
- Introduction to SQL – DataCamp
- Data Analysis in Excel – DataCamp
- Quantium Data Analytics – Forage
- Introduction to Career Skills in Data Analytics – LinkedIn Learning

Projects

- **Classifying Animals from Traits (Machine Learning)**
  - Built **supervised classification models** using **scikit-learn** to predict outcome types; improved model accuracy through **feature engineering.**
  - Optimized model performance with hyperparameter tuning and published findings on **GitHub.**
- **Predictive Modeling for Academic Performance**
  - Applied **regression and clustering techniques** to examine predictors of success in large-scale datasets.
  - Identified social and behavioral variables influencing outcomes of translated data into actionable insights.
- **Variance Analysis via ANOVA Simulation**
  - Designed and executed **ANOVA simulations** in **Python and R** to evaluate variance and environmental effects on production.
  - Interpreted statistical outcomes to highlight experimental effects, ensuring high data integrity.

Professional Experience

- **Data Analytics Job Simulation |** Quantium (via Forage) **|** *Apr 2025 – Jun 2025*
  - **Analyzed 50K+ transaction records** using **Python and SQL** to generate commercial insights for retail strategy.
  - **Conducted uplift testing** on trial store layouts, identifying benchmark stores that informed **$200K+ revenue growth strategies.**
  - **Delivered data-driven recommendations** to support category manager decisions and organizational outcomes.
  - **Processed large-scale datasets** to identify performance benchmarks, ensuring high data integrity for business decision-making.
- **Certified Tennis Instructor |** Naperville Park District **|** *Apr 2025 – Present*
  - **Deliver structured technical instruction** to youth participants, demonstrating strong leadership and communication skills.
  - **Develop personalized strategies** to promote skill improvement and team collaboration, translating complex concepts for diverse audiences.
