## PROFESSIONAL SUMMARY

Statistics graduate from Northern Illinois University with hands-on experience in SQL, PostgreSQL, Python, R, and Excel. Practiced in end-to-end data analysis: building and querying databases, performing statistical analysis, and communicating findings through dashboards and visualizations.

## EDUCATION

**Northern Illinois University** **May 2026**

*Bachelor of Science (B.S.) in Statistics. Honors Program. GPA: 3.7.* *DeKalb, Illinois*

Relevant Coursework: Minors: Applied Mathematics and Geography

## EXPERIENCE

**Certified Tennis Instructor** **April 2025 – Present**

*Naperville Park District* *Naperville, Illinois*

- Managed recurring group sessions for 5 participants, maintaining schedules and tracking individual progress.

**Data Entry and Inventory Control** **December 2024 – February 2025**

*GEODIS* *Wilmington, Illinois*

- Performed product data entry and verification with 100% accuracy while maintaining inventory records.
- Verified shipment information and corrected discrepancies across approximately 100 shipments per day, working within an Excel dataset of over 1,000 records to improve data quality.

**Tennis Coach** **August 2023 – May 2024**

*Northern Illinois University Tennis Club* *DeKalb, Illinois*

**Warehouse Associate** **June 2023 – July 2024**

*EmployGig* *Elwood/Joliet, Illinois*

## PROJECTS

**Healthcare Analytics: Medicare Provider Spending Analysis**

- Analyzed 2,460 CMS Medicare claims across 692 providers and 96 procedure codes to evaluate spending and utilization patterns.
- Identified CPT 99214 as the largest cost driver at $5.6M (20.8% of total Medicare payments) and flagged sharp variation in telephone-based service delivery by city, with Elk Grove Village at 76.7% compared to Chicago at 1.9%, highlighting potential access and care delivery disparities.
- Designed a normalized PostgreSQL database and built SQL queries using CTEs, aggregations, subqueries, and window functions.
- Built an executive Excel dashboard with KPIs including cost per beneficiary and average Medicare payment per service.

## SKILLS

**Languages and Tools:** SQL, PostgreSQL, Python, R, Excel, Power BI, Pandas, NumPy, Scikit-learn

**Competencies:** Data Analysis, Statistical Analysis, Regression, Predictive Modeling, Data Visualization, Dashboard Development, Data Quality

## CERTIFICATIONS

- Meta Data Analyst with GenAI Professional Certificate — Coursera (2025)
- Intermediate SQL — DataCamp (2025)
- Data Analysis in Excel — DataCamp (2026)
