PROFESSIONAL SUMMARY

Statistics graduate (B.S., GPA 3.7) with experience analyzing retail, healthcare, and behavioral datasets using SQL, Python, R, and Excel. Skilled in data cleaning, statistical analysis, customer segmentation, dashboard reporting, and translating quantitative findings into business recommendations.

EDUCATION

Northern Illinois University — B.S. in Statistics *May 2026*

University Honors Program | GPA: 3.7/4.0 | Minors: Applied Mathematics and Geography

Relevant coursework: Regression, Statistical Inference, Design of Experiments, Generalized Linear Models

SELECTED ANALYTICS PROJECTS

Quantium Retail Customer Analytics | Forage Virtual Job Simulation | R, Excel

- Analyzed 50,000+ retail transactions; segmented customers by purchasing patterns to identify product-demand and commercial growth opportunities.
- Selected benchmark stores and compared trial-versus-control performance using uplift testing to inform retail merchandising recommendations.
- Identified $200K+ in potential revenue-growth opportunities in a retail simulation and translated findings into prioritized commercial recommendations.

NIU Honors Capstone: Do Dreams Reflect Our Culture? | R, NLP, Statistical Modeling

- Analyzed 1,600+ U.S., Japanese, and Peruvian dream reports; used LDA topic modeling to identify academic, familial, and nature/travel themes.
- Applied Poisson regression and permutation testing to compare pronoun rates; observed higher relative "I" usage in U.S. reports and presented findings.

Medicare Provider Spending Analysis | SQL, PostgreSQL, Excel

- Modeled 2,460 CMS provider-service records using PostgreSQL, CTEs, and window functions; built an executive Excel KPI dashboard.
- Identified CPT 99214 as a $5.6M spending driver (20.8% of Medicare payments) and evaluated provider-level utilization patterns.

TECHNICAL SKILLS

Analytics & methods: Data Analysis, Customer Segmentation, Uplift Testing, Hypothesis Testing, Regression, Statistical Modeling, NLP, Data Cleaning, Data Validation, KPI Reporting

Tools & visualization: SQL (PostgreSQL, CTEs, Window Functions), Python (Pandas, NumPy, scikit-learn), R, Excel (PivotTables, Dashboards), Power BI (basic), PowerPoint

EXPERIENCE

Data Entry and Inventory Control — GEODIS *Dec 2024 – Feb 2025*

- Verified and corrected shipment and inventory records for approximately 100 shipments daily; maintained data quality across Excel datasets exceeding 1,000 rows.

Certified Tennis Instructor — Naperville Park District *Apr 2025 – Present*

- Managed recurring sessions for five participants, coordinating schedules, tracking progress, and communicating performance feedback.

Tennis Coach — NIU Tennis Club *Aug 2023 – May 2024*

- Coached 10–15 players and coordinated training activities; served as head coach during Spring 2024.

CERTIFICATIONS

- Meta Data Analyst with GenAI Professional Certificate (Coursera, 2025)
- Intermediate SQL (DataCamp, 2025) | Data Analysis in Excel (DataCamp, 2026)
- Lab: Explore Machine Learning and Data Science in IBM watsonx (IBM SkillsBuild, 2026)
- Ethical Considerations for Generative AI (IBM SkillsBuild, 2026)
