Michal Kuderski

Healthcare Data Analyst | Claims Analytics

SUMMARY

Statistics graduate focused on healthcare analytics, claims analysis, KPI reporting, and quality improvement. Experienced analyzing CMS Medicare claims, building SQL and Excel reporting workflows, and communicating findings for healthcare decisions.

EXPERIENCE

Certified Tennis Instructor *April 2025 – Present*
Naperville Park District · Naperville, Illinois

- Managed recurring sessions for 5 participants while maintaining schedules and progress.

Data Entry & Inventory Control *December 2024 – February 2025*
GEODIS · Wilmington, Illinois

- Performed product data entry and verification with 100% accuracy while maintaining inventory records.
- Verified shipment information and corrected discrepancies to support data quality.

Warehouse Associate *June 2023 – July 2024*
EmployGig · Elwood/Joliet, Illinois

Assistant Tennis Coach / Hitting Partner *August 2023 – May 2024*
Northern Illinois University Tennis Club · DeKalb, Illinois

EDUCATION

Bachelor of Science (B.S.) in Statistics *August 2022 – May 2026*
Northern Illinois University

- GPA: 3.7; Minors: Applied Mathematics and Geography; Honors Program

CERTIFICATIONS

- Meta Data Analyst with GenAI Professional Certificate** — Coursera (2025)
- Intermediate SQL** — DataCamp (2025)
- Data Analysis in Excel** — DataCamp (2026)

ACHIEVEMENTS

- Healthcare Analytics — Medicare Provider Spending Analysis: Analyzed 2,460 CMS Medicare claims across 692 providers and 96 procedure codes to evaluate spending, utilization, and cost-efficiency variation.
- Designed a normalized PostgreSQL database and built SQL queries using CTEs, aggregations, subqueries, and window functions.
- Calculated healthcare KPIs including cost per beneficiary and average Medicare payment per service, then delivered an executive Excel dashboard.
